

BONDING LAMINATE HAS NEVER BEEN EASIER!

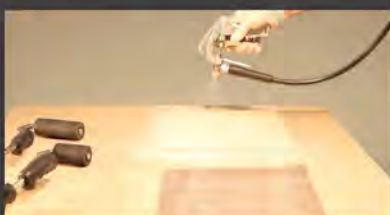

Step 1.

Hold gun at 90° to surface, 75-100mm from the substrate

Step 2.

Apply adhesive to perimeter edges of both surfaces to be bonded.

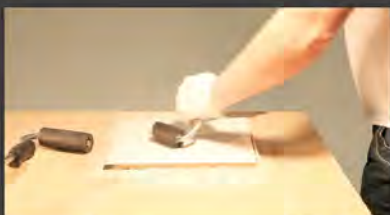

Step 3.

Moving quickly apply an even coat of adhesive, ensuring 50% overlap.

Step 4.

Apply laminate to core board

Step 5.

Apply pressure with Tensorgrip Laminate Roller

TensorGrip L17

TensorGrip L17 is a fully portable adhesive system. It may be used to form high strength bonds with laminates to particle board and MDF substrates. Plywood, many plastics and a wide range of other materials may also be bonded easily using TensorGrip L17.

Features

Adjustable Gun allows you to control the unique spray pattern preventing wastage.

Unique Formula prevents soak in of the adhesive on porous surfaces. This provides the user very high coverage and superior film build, resulting in stronger bonds.

Low odour combined with fast tack time makes this premium adhesive suitable for onsite and factory applications

10 REASONS

WHY YOU NEED TENSORGRIP L17

1. **Fast Application** – speeds up production
2. **Airless** - reduce power usage and save money
3. **Adjustable Spray Pattern**
No overspray - reduce wastage
4. **Fully Portable** - easy to use onsite
5. **Non Flammable Adhesive**
Safer to use and safer to store
6. **Eco Friendly** - Completely recyclable canister
7. **High Temperature Resistance** - 115°C
8. **Very High Solids** - High yield and coverage (up to 230m²)
9. **Low Maintenance** - Reduce down time in cleaning
10. **SAVES TIME AND MONEY!**

Bonding Laminates successfully for 30 years

- ✓ Cabinet Making & Joinery
- ✓ Acoustics
- ✓ Stainless steel
- ✓ Shopfitting
- ✓ Upholstery
- ✓ Marine
- ✓ Exhibitions
