

■ Oak UTX6 - 721 Nutmeg

UMBRATEX[™] Acoustic Collection

Texture in a New Light.

Wood Wool UTX5 - 633 Pacific

COLLECTION OVERVIEW

Umbratex™ takes its name from “umbra” the darkest part of a shadow and “tex”, representing the texture created through precision laser etching. Together, the name reflects the relationship between texture, light and shadow that defines the collection.

Manufactured using EchoPanel® as the base substrate, Umbratex™ surface finishes are produced on a purpose-built laser system developed specifically for large-format acoustic panels. Each design creates permanent texture with visual depth, subtle variation and tactile character, without inks, laminates or applied coatings.

Inspired by natural materials, textiles and architectural forms, the etched textures can be seen and felt, catching light to reveal changing depth, contrast and definition from different directions — presenting **texture in a new light**. The collection is available across the full EchoPanel® colour range.

PRODUCT DETAILS

Umbratex™ Texture Finishes are manufactured from genuine EchoPanel® acoustic panels. Controlled laser etching modifies the surface fibres to create a permanent, shallow texture that may vary by design, colour and natural fibre variation. Refer to the EchoPanel® Technical Data Sheet for base-material performance. Umbratex™ orientation and installation requirements may differ; refer to the individual design specification before installation.

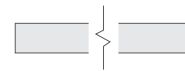

KEY FEATURES

- Precision laser-etched surface finish
 - Precision-cut for tight, discreet panel joins
 - Distinctive tactile texture
 - Permanent laser-etched finish – no inks or surface coatings
 - Manufactured using EchoPanel® as the base material
 - Australian made
 - Designed for seamless multi-panel installations*
- *Refer to individual design specifications for pattern repeat options.

PRODUCT INFORMATION	
Product Group	Umbratex™ Acoustic Collection
Product Type	Precision laser-etched acoustic panels
Base Material	EchoPanel® PET Acoustic Panel
Finish	Permanent laser-etched texture
Dimensions	Width: 1150 mm (±2 mm)
	Length: 2750 mm (±2 mm)
Thickness	12 mm (±7%) or 24 mm (±7%).
Colour Range	Available in all standard EchoPanel® colours
Designs	20 curated texture designs
Custom	Custom designs available on request

EDGE DETAIL

Square Edge (Standard)
(not available on Slab and Bricks designs)

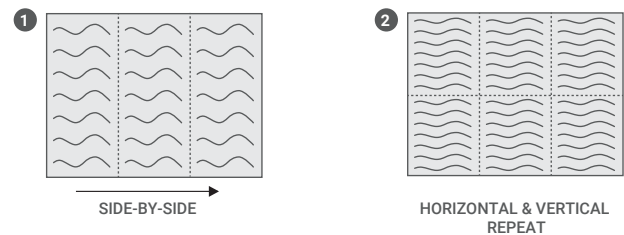

Bevel Edge (Optional)
(long 2750 mm edges only)

PATTERN LAYOUT

Umbratex™ textures are precision-cut to create continuous patterns across adjoining panels. Repeat direction varies by design. Most textures repeat both horizontally and vertically, while selected designs are intended for horizontal, side-by-side installation only.

Refer to the Umbratex™ Specification Guide for design-specific repeat options, panel orientation and recommended installation layouts.

BASE MATERIAL PERFORMANCE

Umbratex™ Acoustic is manufactured on EchoPanel®. For information regarding the performance, sustainability, physical properties, installation and maintenance of the base material, refer to the current EchoPanel® Technical Data Sheet and Installation Guide. These specifications relate to unmodified EchoPanel® only and have not been independently tested or certified following the Umbratex® laser-etching process.

UMBRATEX™ Rawline

Umbratex™ Inspired by architectural battens and finely woven textiles, Rawline reinterprets the classic linear stripe through thicker, irregular broken lines that create a more organic, weathered character. The line weight and pattern density have been carefully developed to provide strong visual contrast across the EchoPanel® colour range, including darker fibre colours such as 442 Grey and 454 Mushroom.

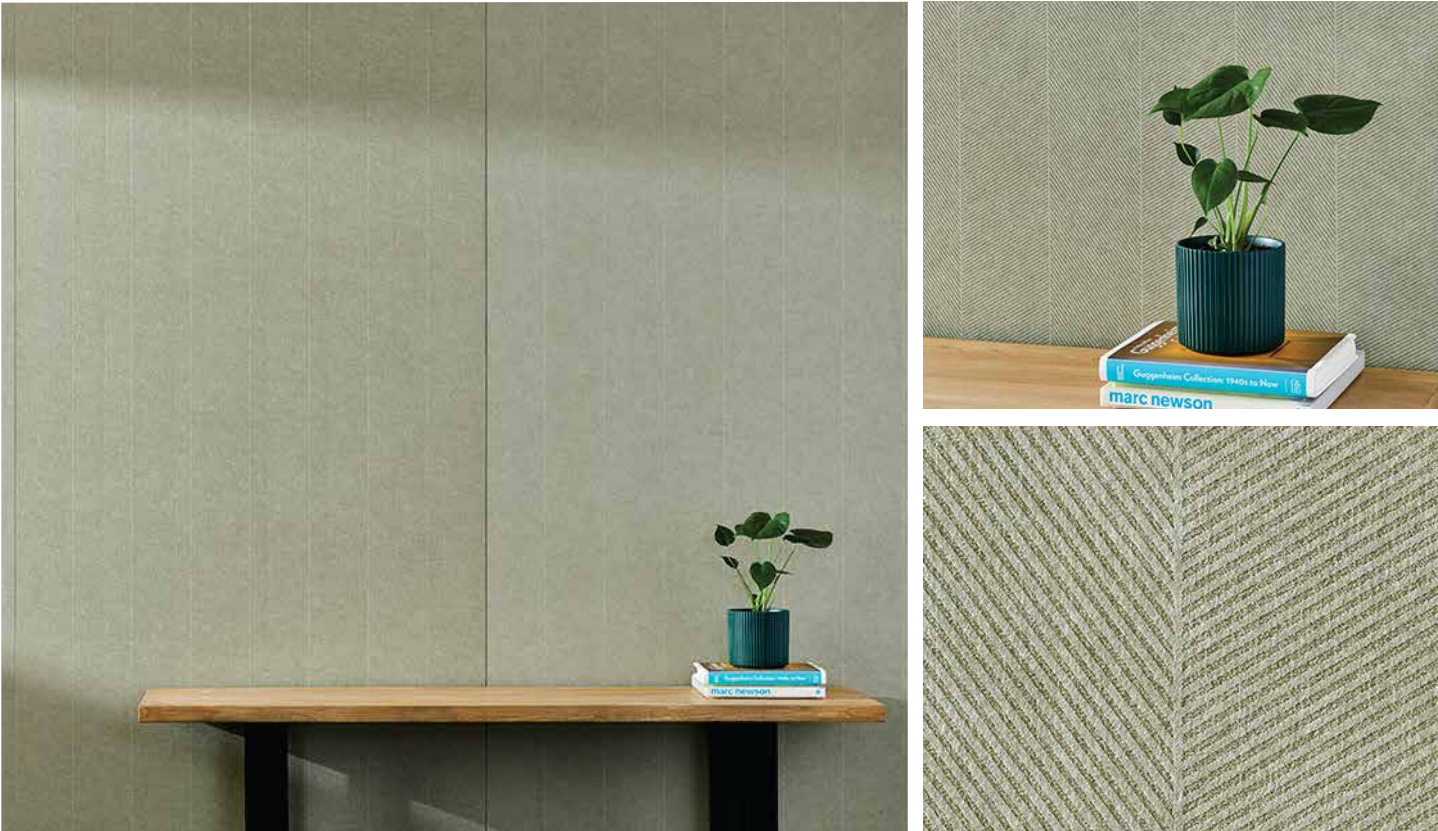

PRODUCT INFORMATION	
Product Name	Rawline
Product Code	UTX1
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

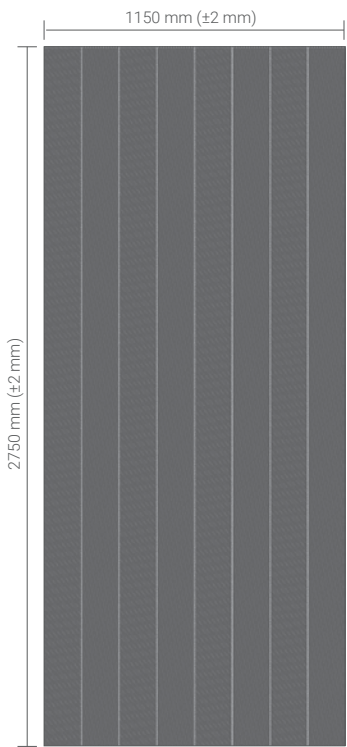

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Acoustic Collection
Texture in a New Light.

UMBRATEX™ Chevron

Inspired by traditional chevron textiles, this design transforms a timeless woven pattern into a refined architectural surface. The alternating angled linework creates subtle directional reflectance, causing opposing angles to catch light differently and enhancing the appearance of vertical striping while adding texture, depth and visual movement.

PRODUCT INFORMATION	
Product Name	Chevron
Product Code	UTX2
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

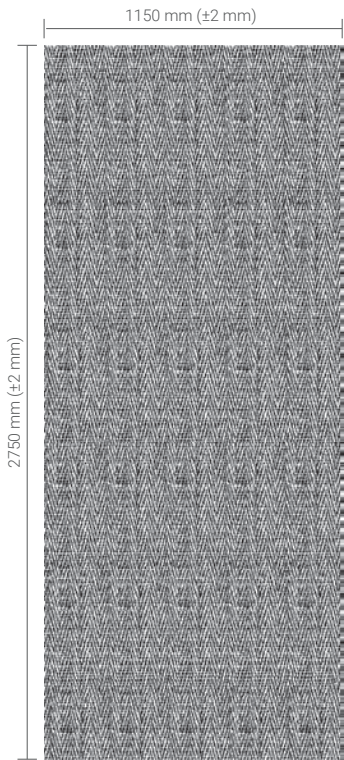

UMBRATEX™ Acoustic Collection
Texture in a New Light.

UMBRATEX™ Herringbone

BHerringbone UTX3 - 349 Vineyard - Square Edge

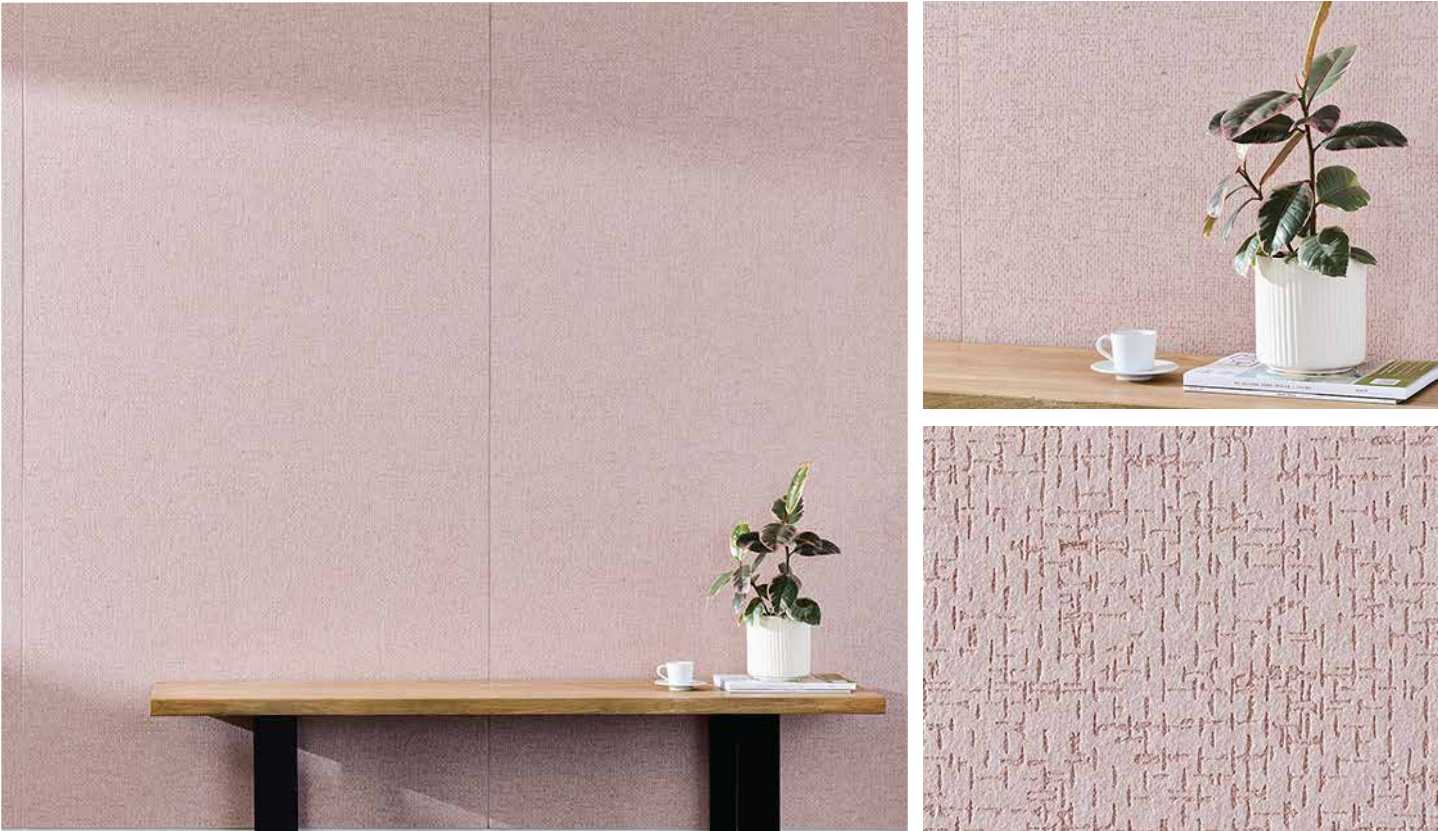

Inspired by traditional woven herringbone textiles, this design reinterprets the classic weave as a large-format architectural surface. The alternating diagonal pattern creates a subtle sense of movement, while the fine linear texture enhances depth and tactile character. Subtle variations throughout the pattern introduce a more natural, imperfect aesthetic reminiscent of a handwoven textile.

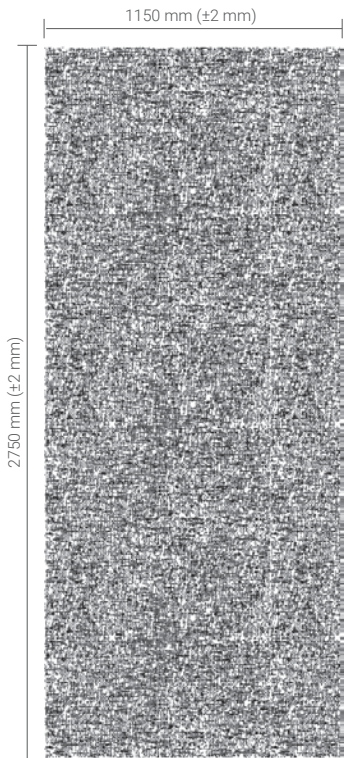

PRODUCT INFORMATION	
Product Name	Herringbone
Product Code	UTX3
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Raffia

Inspired by the timeless character of open-woven raffia, this design transforms the texture of natural woven fibres into a refined architectural surface. The interplay of woven strands creates subtle depth and visual interest, while intentional variations throughout the pattern evoke the authentic imperfections of handcrafted weaving, resulting in a calm, tactile and timeless finish.

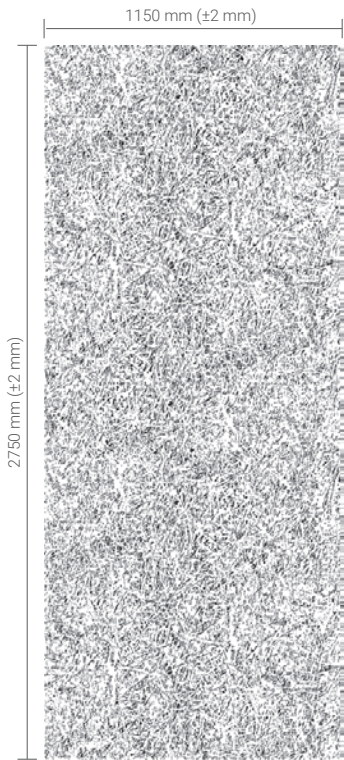

PRODUCT INFORMATION	
Product Name	Raffia
Product Code	UTX4
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Wood Wool

Inspired by the distinctive texture of wood wool (excelsior), this design captures the random arrangement of long, interwoven wood fibres in a refined architectural surface. The layered network of fine strands creates subtle depth, texture and visual movement, while intentional variations throughout the pattern evoke the natural character of compressed wood wool products.

PRODUCT INFORMATION	
Product Name	Wood Wool
Product Code	UTX5
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

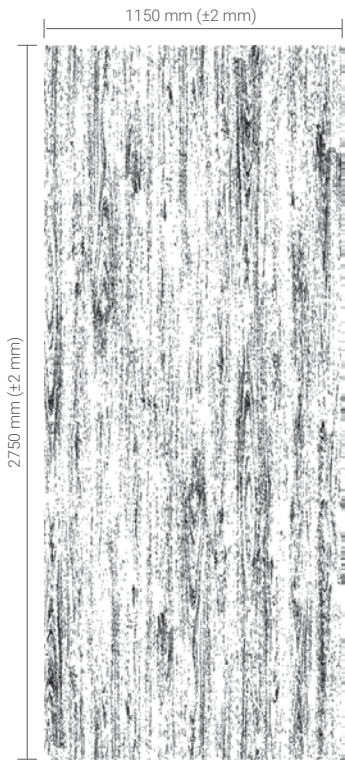

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Oak

Oak UTX6 - 721 Nutmeg - Square Edge

Inspired by contemporary engineered timber finishes, Oak is a refined interpretation of natural woodgrain designed for large-format architectural panels. The design captures the warmth, flow and character of real timber while embracing the subtle consistency required for repeatable production, resulting in a realistic timber appearance with a refined architectural aesthetic.

PRODUCT INFORMATION	
Product Name	Oak
Product Code	UTX6
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Longrain

Inspired by the flowing grain of natural timber, Longrain transforms the essence of wood into a contemporary architectural texture. Rather than replicating timber, the design uses flowing vertical lines, gentle undulations and subtle variations to capture the movement and individuality of natural grain, resulting in a refined finish with a warm, organic character.

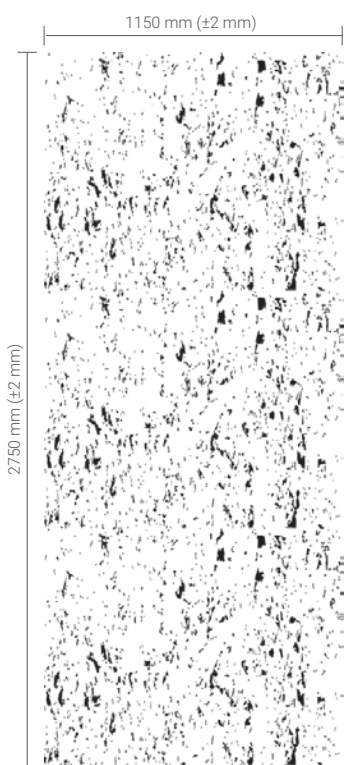

PRODUCT INFORMATION	
Product Name	Longrain
Product Code	UTX7
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Cork

Umbratex™ Cork draws inspiration from the organic character of natural cork and the larger, distinctive wood flakes found in Oriented Strand Board (OSB). Irregular forms and natural variation combine to create a bold architectural texture with depth, character and a contemporary aesthetic.

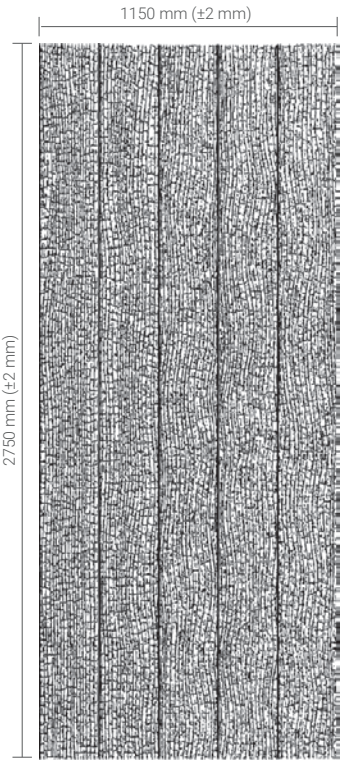

PRODUCT INFORMATION	
Product Name	Cork
Product Code	UTX8
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Charred

Umbratex™ Charred draws inspiration from Shou Sugi Ban (Yakisugi), the traditional Japanese technique of charring timber to preserve and protect its surface. Capturing the cracked grain, rich texture and distinctive character of burnt wood, the pattern has been and refined to create a bold contemporary finish suited to large-format architectural panels.

PRODUCT INFORMATION	
Product Name	Charred
Product Code	UTX9
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

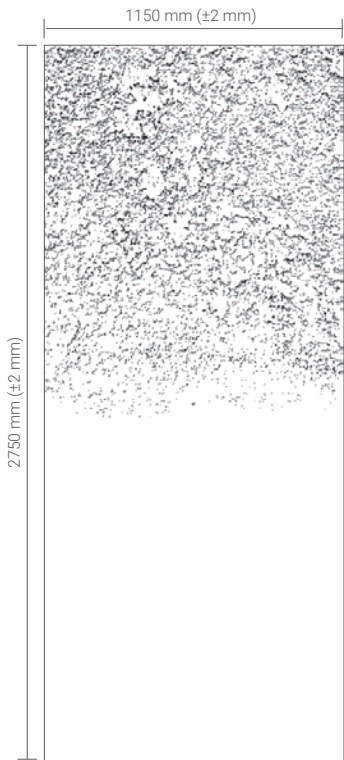

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Acoustic Collection
Texture in a New Light.

UMBRATEX™ Render

Umbratex™ Render draws inspiration from premium mineral plaster finishes, capturing their layered movement, organic variation and refined surface character. Applied across the upper half of the panel, the texture gradually transitions into the smooth surface below, creating a distinctive architectural finish enhanced by directional lighting.

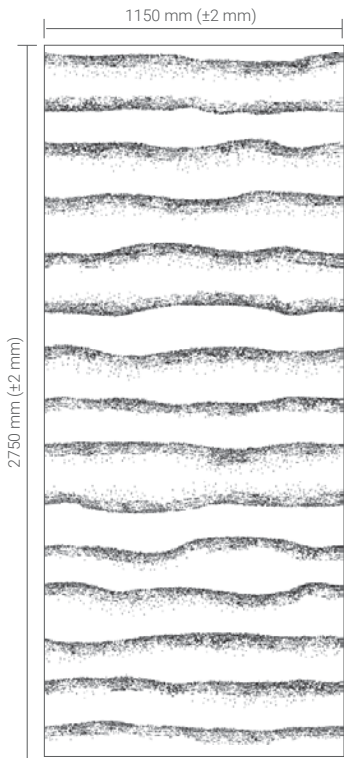

PRODUCT INFORMATION	
Product Name	Render
Product Code	UTX10
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Earth

Umbratex™ Earth draws inspiration from the layered character of rammed earth, capturing the natural striations, subtle movement and organic variation formed during compaction. Its flowing horizontal lines continue from panel to panel, creating a cohesive, uninterrupted finish across large-scale architectural interiors.

PRODUCT INFORMATION	
Product Name	Earth
Product Code	UTX11
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

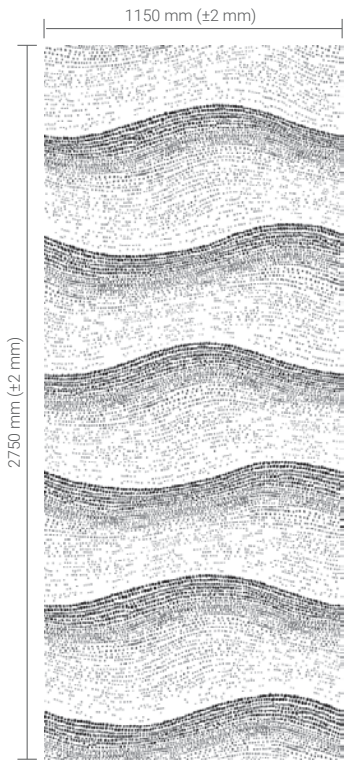

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Acoustic Collection
Texture in a New Light.

UMBRATEX™ Hills

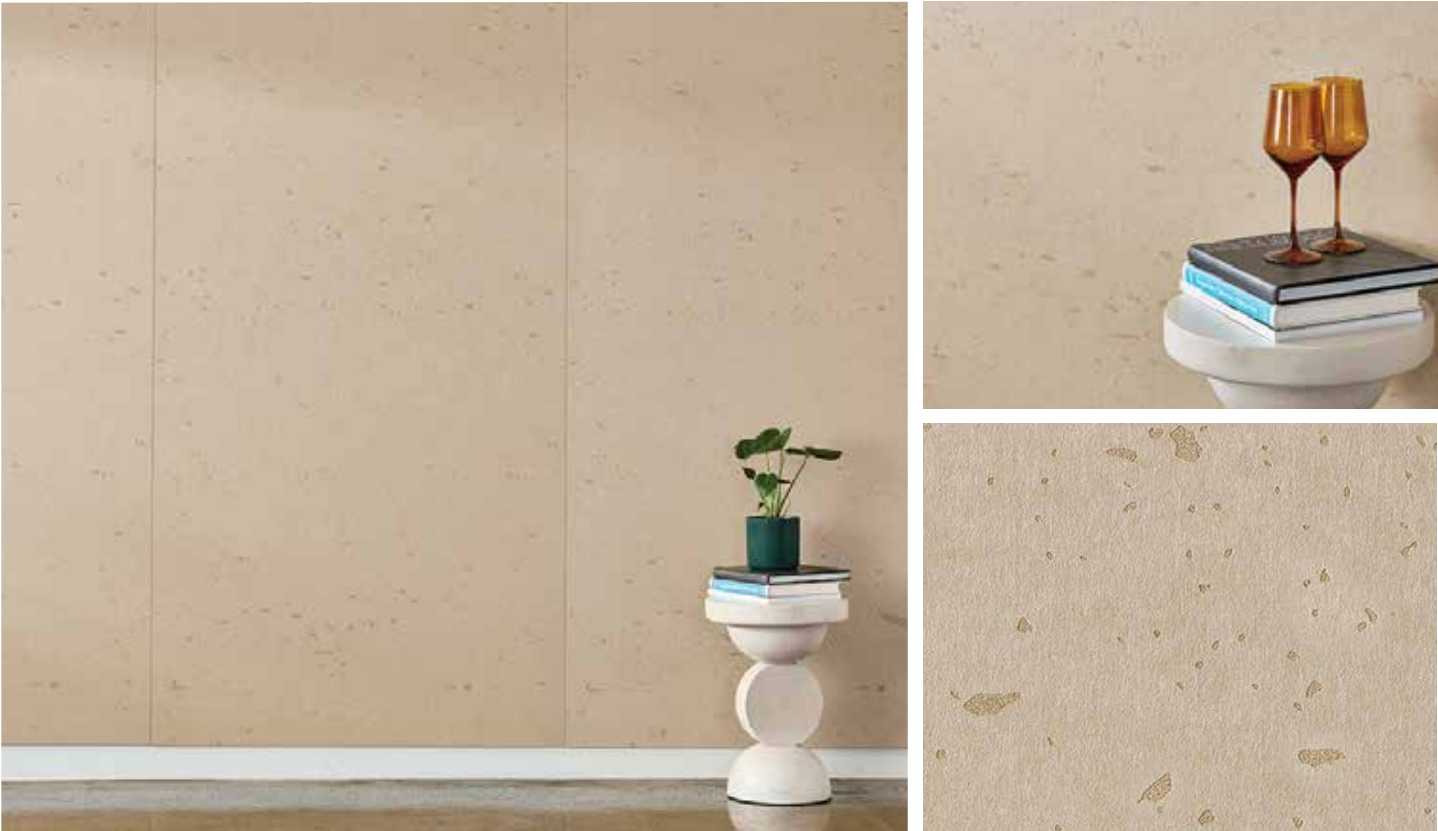

Umbratex™ Hills draws inspiration from the gentle contours of rolling natural landscapes. Using a varied dot texture to define changes in scale, density and form, the design creates a sense of depth and flowing movement. The pattern continues seamlessly from panel to panel, forming an endless landscape across large-scale architectural interiors.

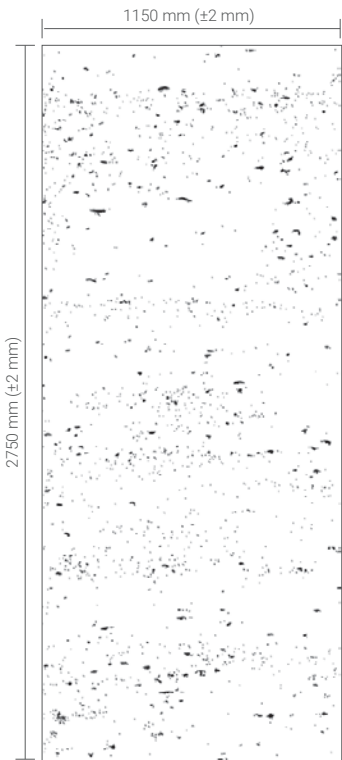

PRODUCT INFORMATION	
Product Name	Hills
Product Code	UTX12
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Travertine

Umbratex™ Travertine draws inspiration from the naturally porous character and layered formations of travertine stone. Irregular markings of varying scale and density recreate the mineral voids and subtle horizontal movement formed over time, creating a refined architectural texture with depth and organic variation.

PRODUCT INFORMATION	
Product Name	Travertine
Product Code	UTX13
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

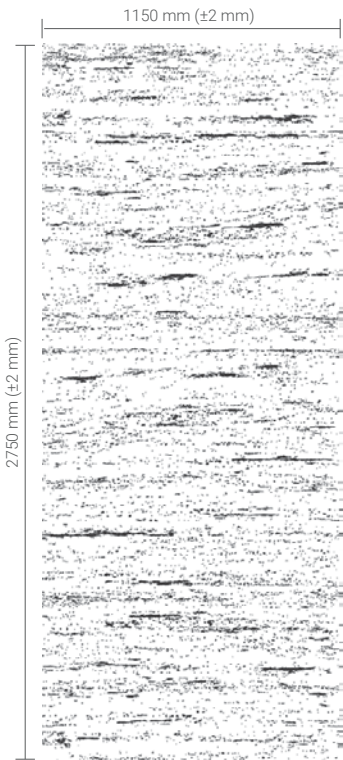

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Rift

Rift UTX14 - 365 Navy - Square Edge

Umbratex™ Rift draws inspiration from the layered formations of travertine and sedimentary stone. Fragmented horizontal markings capture the shifting mineral deposits, natural fractures and weathered character of geological surfaces, creating a richly detailed texture with depth, movement and organic variation.

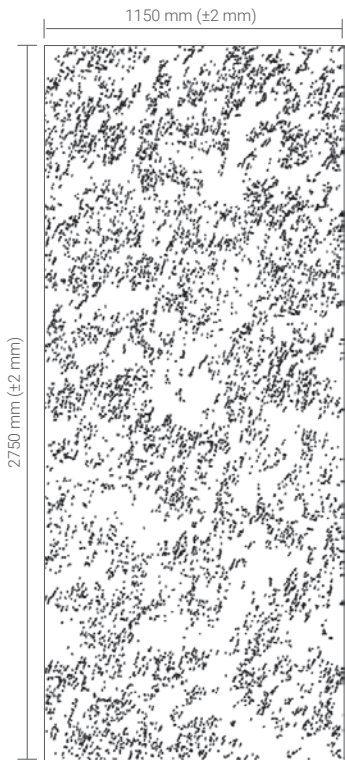

PRODUCT INFORMATION	
Product Name	Rift
Product Code	UTX14
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Granite

Umbratex™ Granite draws inspiration from the crystalline structure and mineral variation of natural granite. Clusters of irregular, fragmented markings flow across the surface, creating a layered architectural texture with depth, movement and organic character.

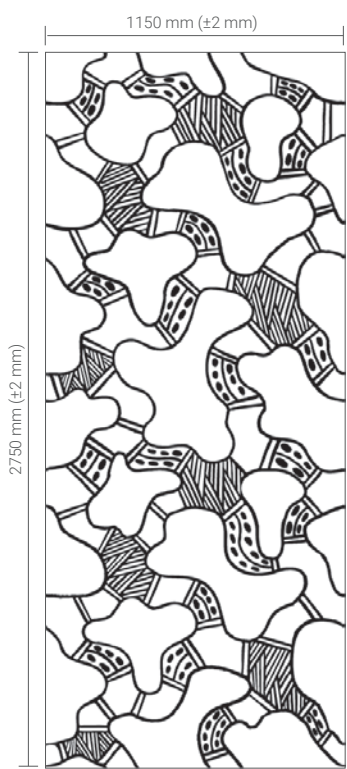

PRODUCT INFORMATION	
Product Name	Granite
Product Code	UTX15
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Kapel

Designed by Emma Bamblett (Wemba Wemba, Gunditjmara, Ngadjonji and Taungurung), Kapel—meaning “River” in the Wemba Wemba language — celebrates the connection between rivers, land and community. Flowing lines represent waterways, stone formations symbolise communities, and repeating linear elements reflect the stories and knowledge passed through generations by Elders.

PRODUCT INFORMATION	
Product Name	Kapel
Product Code	UTX16
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

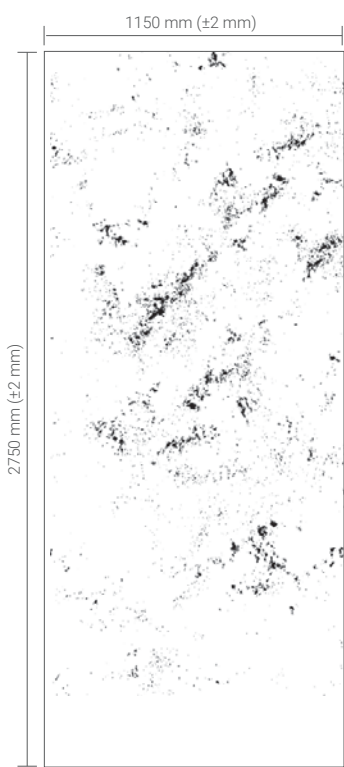

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Purecast

Purecast UTX18 - 101 Frost - Square Edge

Umbratex™ Purecast draws inspiration from semi-polished concrete, reimagining the raw character and subtle imperfections of cast surfaces with a more refined, considered finish. Irregular markings and nuanced tonal variation create depth and natural movement, delivering a sophisticated architectural texture ideally suited to contemporary luxury interiors.

PRODUCT INFORMATION	
Product Name	Purecast
Product Code	UTX17
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

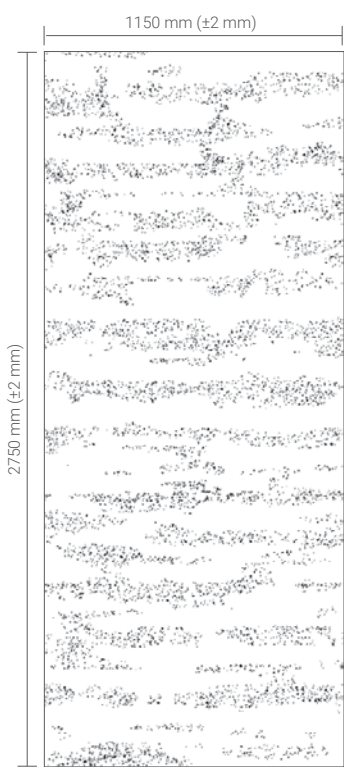

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Aggregate

Aggregate UTX18 - 444 Smoke - Square Edge

Umbratex™ Aggregate draws inspiration from the exposed stone and mineral fragments found within architectural concrete. Irregular markings of varying scale and density recreate the naturally varied character of exposed aggregate, transforming this traditionally heavy material into a refined contemporary texture. Available in vertical and horizontal orientations to suit different architectural applications.

PRODUCT INFORMATION	
Product Name	Aggregate
Product Code	UTX18
Edge Detail	Square Edge (Standard)
	Bevel Edge - long edges only (Optional)
Pattern Layout	Horizontal and vertical repeat*

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Slab

Umbratex™ Slab draws inspiration from stacked architectural concrete slabs, combining the raw character of cast concrete with strong horizontal definition. Bevelled on all four edges and detailed with three V-grooved horizontal lines, the panel is then laser etched to create an additional layer of texture, depth and three-dimensional character.

PRODUCT INFORMATION	
Product Name	Slab
Product Code	UTX19
Edge Detail	Bevel Edge (all sides)
Pattern Layout	Horizontal and vertical repeat*
Surface Detail	Features V-grooved sections for added depth

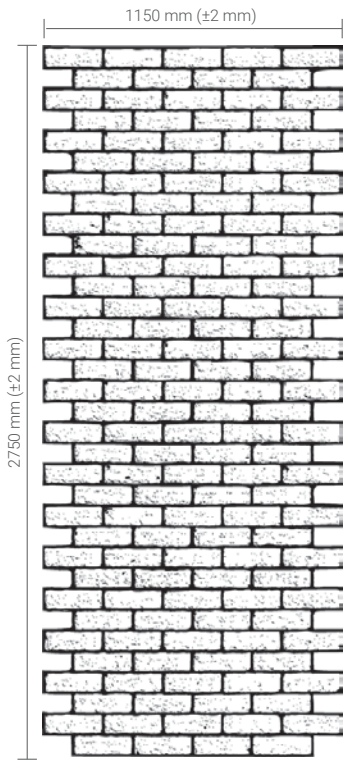

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**

UMBRATEX™ Acoustic Collection
Texture in a New Light.

UMBRATEX™ Bricks

Umbratex™ Bricks recreates the character of traditional brickwork through a detailed, highly considered surface. Thick, dark grout lines are first V-grooved and then laser etched to enhance their depth, texture and realism. Each panel is precisely designed to interlock with the next when rotated 180°, creating a seamless, continuous brick pattern across large-scale installations.

PRODUCT INFORMATION	
Product Name	Bricks
Product Code	UTX20
Edge Detail	Bevel Edge (all sides)
Pattern Layout	Horizontal and vertical repeat*
Surface Detail	Features V-grooved sections for added depth

***Refer to the separate Umbratex™ Specification guide for pattern layouts, edge joins and installation guidance.**
